Storm Data and Unusual Weather Phenomena

June 2005

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons		Estimated Damage		Character of Storm
					Killed	Injured	Property	Crops	

OHIO, Southeast

VIRGINIA, Northwest

NONE REPORTED.

WEST VIRGINIA, West

Barbour County

Philippi	06	1510EST			0	0			Hail(0.75)
----------	----	---------	--	--	---	---	--	--	------------

Kanawha County

Charleston	08	1710EST			0	0	75K		Thunderstorm Wind (EG50)
------------	----	---------	--	--	---	---	-----	--	--------------------------

Several trees were blown down with structural damage on Hamilton Circle, off of Greenbrier Street. Three homes were damaged by the fallen trees. The strongest wind gusts came during a brief downpour associated with a strengthening thunderstorm that was moving toward the northwest. The winds were channeled due to the topography. The airport, 1.5 miles to the north, measured a gust to 54 mph at 1713E.

Kanawha County

Sissonville	08	1815EST			0	0			Thunderstorm Wind (EG50)
-------------	----	---------	--	--	---	---	--	--	--------------------------

Power lines were pulled down by fallen trees.

Gilmer County

Glenville	08	2025EST			0	0			Thunderstorm Wind (EG50)
-----------	----	---------	--	--	---	---	--	--	--------------------------

Trees were knocked down in scattered locations around the community.

Wayne County

Ceredo	14	1700EST			0	0			Thunderstorm Wind (EG50)
--------	----	---------	--	--	---	---	--	--	--------------------------

Trees fell across power lines.

Cabell County

Barboursville	14	1720EST			0	0			Thunderstorm Wind (EG50)
---------------	----	---------	--	--	---	---	--	--	--------------------------

Several trees were blown down.

Lincoln County

Branchland	14	1755EST			0	0			Thunderstorm Wind (EG50)
------------	----	---------	--	--	---	---	--	--	--------------------------

Kanawha County

1 E St Albans	14	1800EST			0	0			Thunderstorm Wind (EG50)
---------------	----	---------	--	--	---	---	--	--	--------------------------

Trees came down between St Albans and South Charleston.

A squall line, of strong to severe thunderstorms, developed in Ohio and Kentucky, then moved into western West Virginia. This activity was well ahead of an approaching cold front.

Lewis County

Hurst	28	1730EST 1845EST			0	0	5K		Flash Flood
-------	----	--------------------	--	--	---	---	----	--	-------------

Downpours from a few slow moving thunderstorms affected the extreme western portion of the county. Fink Creek flooded and damaged Route 11, but no dwellings were affected.

Gilmer County

1.5 NW Troy to .5 W Troy	28	1810EST 1930EST			0	0	100K		Flash Flood
-----------------------------	----	--------------------	--	--	---	---	------	--	-------------

Slow moving thunderstorms dumped over 3 inches of rain in less than 90 minutes over a portion of the Cove Creek basin, and along the smaller Bloody Run. An unofficial report of 4.5 inches of rain was measured along Big Run. A walk bridge was washed out along Big Run. Yet, property damage was more significant along Bloody Run. Water washed out a section of Route 47. Water got into about 4 garages and 1 mobile home. One private bridge was damaged.

The flooding would have been more severe, but the ground was dry prior to the downpour
